

A 30-year celebration worth sharing

To mark its 30-year anniversary, ABA Architects recently opened its office doors in celebratory fashion to clients, consultants, and others in the industry. Dozens of ABA's closest friends were treated to an office that was decorated with project photos, a PowerPoint presentation, and a timeline that displayed photos of many of the past architects and other staff who have worked at the firm.

The event was hosted by ABA principal Kim Fernandez and her husband, Celestino, as well as co-principal Roger Brooks and his wife, Fil. Company co-founder Chuck Albanese also attended the festivities with his wife, Claire.

ABA wants to thank all of those who attended the event and made it such a great success. In addition, the company wishes to express its gratitude to the many clients and consultants over the years that helped us become a mainstay in the industry.
